ENTERED AT SAN FRANCISCO, CAL. AS SECOND-CLASS MATTER

Faught's Blood-Pressure

JUST READY

Norris' Gonorrhea in Women

JUST READY

Dr. Faught's book is designed for practical help *at the bedside*. It meets the urgent needs of the general practitioner, who heretofore had no book to which to turn in case of emergency. Every effort has been made to provide here a practical guide, full of information of a clinical nature, and presented in a way readily available for daily use by the busy man. The wonderful strides made in our knowledge of blood-pressure, and the practical application of sphygmomanometric findings within recent years, make it imperative for every medical man to have close at hand an up-to-date work on this subject.

Octavo of 280 pages, illustrated. By FRANCIS A. FAUGHT, M.D., Instructor in Medicine, Medical-Chirurgical College, Philadelphia. Cloth, \$3.00 net.

Dr. Norris here presents a work that is destined to take high place among publications on this subject. He has done his work thoroughly. He has searched the important literature very carefully, over 2300 references being utilized. This, coupled with Dr. Norris' long experience, gives his work the stamp of authority. The chapter on serum and vaccine therapy and organotherapy is particularly valuable because it expresses the newest advances. Every phase of the subject is considered, including the *sociologic side* (prostitution, prophylaxis, social evil, etc.).

Large octavo of 520 pages, illustrated. By CHARLES C. NORRIS, M.D., Instructor in Gynecology, University of Pennsylvania. With an Introduction by JOHN G. CLARK, M.D., Professor of Gynecology, University of Pennsylvania. Cloth, \$6.00 net; Half Morocco, \$7.50 net.
